

MICHAEL ANDERSON

3D ARCHITECTURAL MODELER

PROFILE

With a robust foundation in architectural visualization, this 3D modeler possesses an extraordinary ability to translate complex architectural concepts into compelling visual narratives. The individual has successfully collaborated with architects and designers to produce high-quality renderings that serve as pivotal marketing tools. Demonstrated proficiency in utilizing industry-standard software to create photorealistic models that enhance client presentations and project proposals.

EXPERIENCE

3D ARCHITECTURAL MODELER

Visionary Architects

2016 - Present

- Developed 3D models for residential and commercial projects, enhancing client engagement.
- Worked closely with architects to refine design concepts through detailed visualizations.
- Utilized SketchUp and V-Ray to produce high-quality renderings.
- Created immersive walkthrough animations for client presentations.
- Ensured all models were compliant with architectural specifications and building codes.
- Conducted reviews and revisions based on client feedback to achieve desired outcomes.

JUNIOR 3D MODELER

Design Innovations

2014 - 2016

- Assisted in the creation of 3D models for various architectural projects.
- Supported senior modelers in refining visual representations.
- Participated in on-site visits to gather data for accurate modeling.
- Developed textures and materials to enhance model realism.
- Maintained project documentation to ensure alignment with client specifications.
- Contributed to team brainstorming sessions with creative input and solutions.

SKILLS

- architectural visualization
- SketchUp
- V-Ray
- AutoCAD
- teamwork
- attention to detail

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN
ARCHITECTURE, TECHNICAL
UNIVERSITY, 2018

ACHIEVEMENTS

- Played a key role in a project that won the 'Best New Development' award at the National Architecture Awards, 2022.
- Streamlined modeling processes, reducing project completion time by 20%.
- Recognized for exceptional client feedback on project presentations.
