Strategic Academic Learning Specialist with over 9 years of experience in the education technology industry, specializing in developing digital learning solutions that enhance student learning outcomes. My expertise lies in integrating technology into traditional learning environments, fostering interactive and engaging educational experiences. I have successfully led the design and implementation of e-learning platforms that have been adopted by educational institutions nationwide.

WORK EXPERIENCE

E-Learning Specialist | Tech for Learning Corp.   Jan 2022 – Present

- Developed and launched an e-learning platform that increased student engagement by 40% within the first year of implementation.
- Collaborated with educators to design interactive course content that aligns with curriculum standards.
- Utilized data analytics to assess program effectiveness, leading to a 25% improvement in student learning outcomes.
- Facilitated training sessions for teachers on the integration of technology in the classroom.
- Managed user experience feedback to continuously enhance the platform's functionality and accessibility.
- Worked with cross-functional teams to develop innovative digital learning materials and resources.

Instructional Designer | Innovative Education Solutions   Jul 2019 – Dec 2021

- Designed and developed online courses for various subjects, increasing course completion rates by 35%.
- Conducted user testing to gather feedback and refine course materials, enhancing user satisfaction.
- Collaborated with subject matter experts to create engaging and effective learning experiences.
- Implemented instructional design best practices to ensure high-quality educational content.
- Monitored and analyzed learner performance data to inform future course development.
- Trained educators on best practices for online teaching and learning.
