🎓 EDUCATION

Bachelor of Arts in Educational Technology

University of Digital Learning
2013

★ SKILLS

- E-Learning Development
- Instructional Design
- Multimedia Production
- Learning Management Systems
- User Experience Testing
- Technology Integration

🗚 LANGUAGES

- English
- Spanish
- French

I am an innovative Adult Learning Practitioner with a strong focus on technology integration in education, boasting over 9 years of experience in creating digital learning solutions for adult learners. My career began in a traditional classroom setting, where I quickly recognized the potential of technology to enhance the learning experience.

💼 WORK EXPERIENCE

E-Learning Developer   2020-2023
Digital Learning Solutions

- Developed over 15 e-learning courses utilizing multimedia tools, resulting in a 40% increase in course completion rates.
- Collaborated with subject matter experts to design engaging and interactive online learning experiences.
- Utilized Learning Management Systems to track learner progress and gather feedback for course improvement.
- Conducted user testing to ensure courses met the needs of adult learners.
- Facilitated training sessions for educators on integrating technology into their teaching practices.
- Maintained and updated online course content to ensure relevance and accuracy.

Instructional Designer   2019-2020
TechEd Innovations

- Designed and implemented instructional materials for adult education programs, achieving a 35% improvement in learner engagement.
- Conducted research on educational technologies to enhance course offerings and delivery methods.
- Worked closely with trainers to develop blended learning solutions that combine online and face-to-face instruction.
- Analyzed learner feedback to continuously improve instructional design and delivery.
- Created templates and guidelines for course development to streamline the design process.
- Participated in professional development workshops to stay abreast of industry trends.

★ ACHIEVEMENTS

- Recognized for outstanding contributions to e-learning initiatives with the Innovation in Education Award in 2021.
- Increased learner satisfaction rates by 50% through the implementation of interactive course elements.
- Secured funding for digital resource development to enhance adult learning programs.
