Michael Anderson

INTEGRATED CARE PHYSICIAN

Experienced Adult Medicine Physician specializing in integrated care and chronic disease management, with over 14 years in diverse healthcare settings. I believe in a holistic approach to medicine that addresses not just the physical, but also the emotional and social factors affecting health. My career has been marked by a commitment to patient advocacy, ensuring that each individual receives personalized care that meets their unique needs.

EXPERIENCE

INTEGRATED CARE PHYSICIAN

Harmony Health Services

2016 - Present

- Led a team of healthcare professionals in providing integrated care for patients with complex health issues.
- Developed and implemented care plans that addressed physical, mental, and social health needs.
- Utilized health data analytics to track patient outcomes and make data-driven improvements.
- Facilitated case management meetings to coordinate care among various specialties.
- Engaged patients in self-management strategies to enhance their health outcomes.
- Provided training and supervision to junior team members on integrated care practices.

ADULT MEDICINE PHYSICIAN

Regional Health Network

2014 - 2016

- Delivered comprehensive medical care to adult patients, focusing on chronic disease management.
- Implemented quality improvement projects to enhance patient care and safety.
- Collaborated with community organizations to promote health education and disease prevention.
- Conducted research on best practices for chronic disease management.
- Provided mentorship to medical students and residents, fostering their professional development.
- Participated in local health committees to address community health issues.
