EXPERTISE SKILLS

- Project Management
- Quality Assurance
- Process Optimization
- Risk Assessment
- Team Leadership
- Analytical Skills

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Science in Aerospace Systems Engineering, Massachusetts Institute of Technology, 2009

MICHAEL ANDERSON

LEAD AEROSPACE PRODUCTION ENGINEER

Results-oriented Aerospace Production Engineer with more than 12 years of experience in overseeing complex aerospace manufacturing projects.

Expertise encompasses project management, quality assurance, and process optimization. Demonstrates a strong ability to leverage analytical skills to drive operational improvements and enhance product quality. Experienced in collaborating with engineering teams to develop innovative solutions that meet project specifications and regulatory compliance.

PROFESSIONAL EXPERIENCE

Galaxy Aerospace

Mar 2018 - Present

Lead Aerospace Production Engineer

- Directed the production of aircraft components, ensuring adherence to quality standards.
- Led a team of engineers in the implementation of process improvements.
- Monitored production metrics to assess performance and efficiency.
- Developed and maintained project schedules and budgets.
- Collaborated with suppliers to ensure material quality and delivery.
- Conducted risk assessments to identify potential production issues.

Orion Aircraft Manufacturing

Dec 2015 - Jan 2018

Production Supervisor

- Supervised daily operations in the production of aerospace systems.
- Implemented quality control measures to enhance product reliability.
- Coordinated the training and development of production staff.
- Analyzed production workflows to identify inefficiencies.
- Engaged with customers to resolve production-related inquiries.
- Produced detailed reports on production performance.

ACHIEVEMENTS

- Achieved a 50% reduction in production downtime through strategic improvements.
- Received the Excellence in Engineering award for leadership on a high-profile project.
- Successfully managed a project that resulted in a 35% increase in production capacity.
