WORK EXPERIENCE

Senior Quality Engineer

2020-2023

AeroDynamics Corp

- Led quality assurance initiatives for aerospace manufacturing processes.
- Developed and implemented comprehensive quality control plans.
- Conducted audits and inspections to ensure compliance with standards.
- Collaborated with cross-functional teams to resolve quality issues.
- Trained personnel on quality assurance methodologies.
- Utilized statistical process control to monitor production quality.

Quality Engineer

2019-2020

Aerospace Innovations

- Assisted in the development of quality assurance standards and procedures.
- Performed inspections and tests on aerospace components.
- Documented quality metrics and generated reports for management.
- Participated in supplier quality audits and assessments.
- Supported the implementation of ISO 9001 standards.
- Collaborated with engineering teams to enhance product designs.

ACHIEVEMENTS

- Achieved a 50% reduction in non-conformance reports through process enhancements.
- Recognized for exceptional leadership in quality improvement projects.
- Successfully implemented a new quality management system, increasing efficiency.
