WORK EXPERIENCE

Research and Evaluation Manager

2020-2023

Community Housing Research Institute

- Led research initiatives analyzing housing trends and their impact on low-income families.
- Developed evaluation frameworks to measure program effectiveness and community impact.
- Collaborated with local agencies to gather data on housing needs and preferences.
- Presented findings to stakeholders, influencing policy and funding decisions.
- Facilitated training sessions on data analysis techniques for program staff.
- Authored reports that highlighted key insights and recommendations for improvement.

Data Analyst

2019-2020

Housing Insights Group

- Conducted data analysis to support housing program development and evaluation.
- Utilized statistical software to analyze data sets and identify trends.
- Collaborated with cross-functional teams to integrate data into program planning.
- Presented data-driven insights to inform strategic decision-making.
- Supported grant writing efforts by providing data analysis and research.
- Maintained databases to ensure data accuracy and accessibility for stakeholders.

ACHIEVEMENTS

- Produced research reports that led to the allocation of \$3 million in funding for housing initiatives.
- Received the Data Excellence Award for innovative approaches to housing research.
- Increased data accessibility for stakeholders by implementing new data management systems.
