SUMMARY

Distinguished Agricultural Extension Forester with over 15 years of experience in enhancing forest management practices and promoting sustainable land use. Expertise includes developing educational programs aimed at improving forestry practices among local communities. Demonstrated ability to integrate modern technology with traditional forestry methods, resulting in measurable improvements in forest health and productivity.

WORK EXPERIENCE

Senior Forestry Consultant Green Tree Solutions   *Jan 2023 - Present*

- Conducted comprehensive assessments of forest ecosystems to determine health and biodiversity.
- Developed and implemented community outreach programs to educate landowners on sustainable practices.
- Utilized GIS technology to map forest resources and identify areas for conservation.
- Collaborated with local governments to draft policies promoting sustainable forestry.
- Trained over 200 individuals in effective forest management techniques.
- Published research findings in peer-reviewed journals to advance knowledge in the field.

Extension Forester State Forestry Department   *Jan 2020 - Dec 2022*

- Provided technical assistance to forest landowners on best management practices.
- Organized workshops and seminars to enhance community understanding of forestry issues.
- Monitored and evaluated the success of forestry programs through field data collection.
- Established partnerships with academic institutions for research collaboration.
- Facilitated discussions on forest policy changes with stakeholders.
- Implemented a mentorship program for new foresters entering the field.

EDUCATION

Master of Science in Forestry, University of Washington   *Sep 2019 - Oct 2020*
