

MICHAEL ANDERSON

ORGANIC FARMING CONSULTANT

PROFILE

Ambitious Agricultural Extension Scientist with a keen focus on organic farming and agroecology. Over 7 years of experience in educating farmers on organic practices and sustainable farming systems that enhance soil fertility and biodiversity. Skilled in developing community-focused programs that promote environmental stewardship and economic viability. Experienced in leveraging social media and digital platforms to reach and educate a wider audience about organic farming benefits.

EXPERIENCE

ORGANIC FARMING CONSULTANT

EcoGrow Corporation

2016 - Present

- Designed and implemented workshops on organic farming techniques for local farmers.
- Conducted soil health assessments to provide tailored recommendations.
- Regularly updated digital content to engage farmers on organic practices.
- Facilitated field visits to successful organic farms for experiential learning.
- Collaborated with NGOs to promote organic certification among farmers.
- Evaluated the impact of organic practices on crop yields and soil health.

AGRICULTURAL EXTENSION SPECIALIST

Green Future Initiative

2014 - 2016

- Developed extension materials focusing on organic pest management strategies.
- Established a network of organic farmers for knowledge sharing and support.
- Organized annual organic farming fairs to promote local organic products.
- Utilized GIS mapping tools to identify potential areas for organic farming.
- Conducted surveys to assess farmer needs and program effectiveness.
- Presented findings to stakeholders to secure funding for organic initiatives.
