SKILLS

- Climate-smart agriculture
- Research analysis
- Community engagement
- Education development
- Policy development
- Data interpretation

LANGUAGES

- English
- Spanish
- French

EDUCATION

**MASTER OF SCIENCE IN
AGRICULTURAL SCIENCES,
UNIVERSITY OF THE EARTH**

ACHIEVEMENTS

- Increased farmer knowledge of climate adaptation strategies by 35% in one year.
- Received a grant for \$75,000 to implement climate-smart projects in the region.
- Authored a widely-cited report on climate impacts on local agriculture.

WORK EXPERIENCE

CLIMATE-SMART AGRICULTURE SPECIALIST

Sustainable Farming Network

2020 - 2025

- Conducted workshops on climate adaptation strategies for over 200 farmers.
- Developed educational materials focused on climate impacts on crop production.
- Collaborated with local governments to create climate resilience plans.
- Implemented demonstration projects showcasing sustainable farming techniques.
- Analyzed climate data to inform farmer decision-making processes.
- Established a farmer network for sharing climate-smart practices and experiences.

AGRICULTURAL RESEARCH FELLOW

AgroSolutions Institute

2015 - 2020

- Conducted research on the effects of climate change on crop yields.
- Published findings on best practices for climate adaptation in agriculture.
- Presented research at national conferences and workshops.
- Collaborated with interdisciplinary teams on climate research projects.
- Engaged with farmers to gather qualitative data on climate challenges.
- Developed policy recommendations based on research outcomes.
