## WORK EXPERIENCE

### Community Agricultural Educator

2020-2023

Sustainable Farming Initiative

- Developed and delivered training modules on sustainable farming methods.
- Engaged with local farmers to identify specific educational needs.
- Facilitated workshops that promote innovative agricultural technologies.
- Coordinated with local organizations to enhance training outreach.
- Evaluated training effectiveness through participant surveys and feedback.
- Provided ongoing support and resources to farmers post-training.

### Agricultural Research Assistant

2019-2020

AgriResearch Center

- Assisted in conducting research on crop diseases and pest management.
- Supported the development of educational materials based on research findings.
- Participated in field trials to evaluate new farming techniques.
- Collaborated with researchers to disseminate findings to local farmers.
- Organized community outreach events to promote research outcomes.
- Maintained accurate records of research data and findings.

## ACHIEVEMENTS

- Achieved a 45% increase in farmer adoption of sustainable practices within two years.
- Recognized for excellence in agricultural education by the Regional Farming Association in 2021.
- Successfully implemented a program that enhanced food security for 300 households.
