- agricultural technology
- precision agriculture
- data analysis
- training development
- stakeholder collaboration
- program evaluation

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
AGRICULTURAL ENGINEERING, TECH
UNIVERSITY, 2019**

ACHIEVEMENTS

- Increased technology adoption rates among farmers by 60% within two years.
- Recipient of the 'Innovator of the Year' award from the Agricultural Technology Association in 2022.
- Published articles on precision agriculture in leading industry journals.

WORK EXPERIENCE

AGRICULTURAL TECHNOLOGY SPECIALIST

AgriTech Innovations

2020 - 2025

- Implemented technology-driven outreach programs to demonstrate precision agriculture tools.
- Conducted training sessions on the use of drones and data analytics in farming.
- Collaborated with farmers to assess technology needs and tailor solutions accordingly.
- Developed case studies showcasing successful technology integrations in agriculture.
- Organized technology fairs to connect farmers with industry experts.
- Evaluated program success through farmer feedback and productivity metrics.

PRECISION AGRICULTURE TRAINER

Farmers' Cooperative Association

2015 - 2020

- Designed and delivered training programs on precision agriculture practices.
- Utilized data visualization tools to demonstrate farming efficiencies.
- Collaborated with agricultural engineers to develop tailored tech solutions.
- Managed pilot projects assessing new technologies in real-world settings.
- Facilitated discussions on the impact of technology on sustainability.
- Analyzed training outcomes to refine program offerings.
