EDUCATION

**MASTER OF SCIENCE IN AGROECOLOGY,
UNIVERSITY OF FLORIDA, 2012**

ACHIEVEMENTS

- Recognized as a 'Top 40 Under 40' leader in sustainable agriculture by AgriBusiness Magazine in 2019.
- Successfully led a project that increased organic farming adoption by 15% in the region.
- Developed educational content that reached over 1,000 farmers through various outreach programs.

PROFILE

Results-driven Agricultural Systems Scientist with a focus on agroecology and sustainable farming practices. With a decade of experience, I specialize in developing integrated farming systems that enhance biodiversity and improve ecosystem services. I have a strong track record of collaborating with diverse stakeholders, including farmers, NGOs, and governmental bodies to promote sustainable agriculture.

EXPERIENCE

LEAD AGROECOLOGIST

EcoAgri Solutions

2016 - Present

- Designed and implemented agroecological practices that increased farm productivity by 40%.
- Facilitated workshops for over 300 farmers on sustainable pest management techniques.
- Conducted research on cover cropping systems that enhanced soil fertility.
- Collaborated with local universities to conduct research on crop rotations.
- Published findings in agricultural journals to share knowledge with the broader community.
- Advised government agencies on policies to promote sustainable agriculture.

RESEARCH ASSOCIATE

Sustainable Agriculture Research Institute

2014 - 2016

- Assisted in the development of a national framework for sustainable farming practices.
- Analyzed data from field trials to determine the impact of organic fertilizers.
- Engaged with farmers to collect data on the effectiveness of integrated pest management.
- Contributed to educational materials for farmers on sustainable agriculture.
- Supported grant writing efforts, securing funding for research initiatives.
- Participated in community meetings to discuss sustainable agricultural practices.
