- stakeholder collaboration
- research coordination
- data analysis
- environmental education
- project management

LANGUAGES

- English
- Spanish
- French

Visionary Agroforestry Specialist with a deep commitment to promoting sustainable agricultural practices and enhancing ecosystem resilience. Possesses a wealth of experience in designing and implementing agroforestry systems that optimize land use while conserving biodiversity. Demonstrates exceptional skills in stakeholder collaboration, facilitating knowledge exchange among farmers, researchers, and policymakers. Adept in utilizing innovative technologies to monitor agroforestry project impacts and improve outcomes.

💼 WORK EXPERIENCE

Agroforestry Research Coordinator   2020-2023
International Agroforestry Institute

- Coordinated research projects focused on agroforestry innovations.
- Engaged with diverse stakeholders for collaborative project development.
- Utilized remote sensing for data collection and analysis.
- Facilitated training sessions for researchers and practitioners.
- Published research findings in international journals.
- Secured funding for future agroforestry research initiatives.

Field Coordinator   2019-2020
Agroforestry Development Agency

- Oversaw field activities for agroforestry implementation projects.
- Conducted baseline assessments to inform project design.
- Trained farmers on agroforestry techniques and benefits.
- Monitored project outcomes and reported to stakeholders.
- Developed partnerships with local organizations for resource sharing.
- Participated in community outreach initiatives to promote agroforestry.

★ ACHIEVEMENTS

- Increased project efficiency by 30% through innovative methodologies.
- Received accolades for excellence in research dissemination.
- Successfully implemented agroforestry systems impacting 1,000+ farmers.
