MICHAEL ANDERSON

AI DEVELOPER

Creative AI Architect with a unique blend of artistic vision and technical expertise. With over 9 years of experience in the entertainment industry, I specialize in developing AI tools that enhance storytelling and user engagement in digital media. My passion for creativity drives me to design innovative AI applications that analyze audience preferences and behavior, allowing for personalized content delivery.

PROFESSIONAL EXPERIENCE

Creative Media Studios

Mar 2018 - Present

AI Developer

- Developed AI algorithms for real-time audience sentiment analysis during live events.
- Implemented machine learning models that customized content for user preferences.
- Collaborated with artists to integrate AI into interactive installations.
- Designed a recommendation engine that increased viewer retention by 25%.
- Conducted user testing to refine AI applications based on audience feedback.
- Presented AI capabilities to stakeholders, leading to new project opportunities.

Digital Arts Lab

Dec 2015 - Jan 2018

AI Researcher

- Researched AI techniques for generative art, resulting in a popular exhibition.
- Collaborated with developers to create AI tools for game design.
- Published findings on AI in storytelling, enhancing industry knowledge.
- Conducted workshops on AI applications in creative fields for artists and technologists.
- Managed project timelines and deliverables for multiple initiatives.
- Engaged with community stakeholders to promote AI literacy in the arts.

ACHIEVEMENTS

- Won 'Best Interactive Experience' award at the Digital Arts Festival.
- Increased project visibility by 40% through innovative AI applications.
- Mentored aspiring technologists, leading to several successful collaborations.
