Master's in Computer Science

University of Michigan

2016-2020

★ SKILLS

- AI ethics
- sociological research
- technical analysis
- public engagement
- interdisciplinary collaboration
- policy advocacy

🌐 LANGUAGES

- English
- Spanish
- French

As an AI Ethics Researcher with a background in computer science and sociology, I have spent the last eight years exploring the societal impacts of AI technologies. My work is grounded in a strong understanding of both the technical and social dimensions of AI, allowing me to conduct comprehensive research that addresses ethical concerns from multiple perspectives.

💼 WORK EXPERIENCE

Senior AI Ethics Researcher
2020-2023

AI Impact Group

- Conducted studies on the societal impact of AI technologies, influencing corporate policies.
- Developed ethical guidelines for AI deployment in social media platforms.
- Engaged in public discourse on AI ethics through community forums.
- Collaborated with interdisciplinary teams to assess AI's impact on behavior.
- Published research on the effects of AI on social norms in peer-reviewed journals.
- Presented findings to stakeholders, advocating for responsible AI practices.

AI Research Associate
2019-2020

Institute for Ethical AI

- Assisted in research projects focusing on ethical implications of AI.
- Analyzed case studies of AI's impact on vulnerable populations.
- Collaborated with tech developers on ethical design principles.
- Participated in workshops on the social impact of AI technologies.
- Published articles on the intersection of AI and sociology.
- Contributed to the development of ethical assessment frameworks.

★ ACHIEVEMENTS

- Secured a grant of $200,000 for research on AI and social impact.
- Published 12 articles on ethical AI in sociology journals.
- Recognized for contributions to community-driven AI ethics initiatives.
