MICHAEL ANDERSON

AI ETHICS COORDINATOR

Innovative AI Governance Specialist with over 6 years of experience in the healthcare technology sector, focusing on the ethical use of AI in patient care and data management. My expertise lies in developing governance frameworks that uphold privacy, security, and ethical considerations in AI applications.

PROFESSIONAL EXPERIENCE

HealthTech Solutions   *Mar 2018 - Present*
AI Ethics Coordinator

- Established AI ethics guidelines to ensure compliance with healthcare regulations.
- Conducted audits on AI systems to assess their impact on patient care.
- Collaborated with healthcare professionals to develop best practices for AI usage.
- Facilitated training on ethics and governance for clinical staff.
- Evaluated AI tools for compliance with patient privacy laws.
- Engaged with stakeholders to promote responsible AI initiatives.

MedData Analytics   *Dec 2015 - Jan 2018*
Data Governance Specialist

- Developed data governance policies focused on AI applications in health data.
- Performed risk assessments to identify ethical concerns in AI algorithms.
- Worked with IT teams to ensure data security in AI projects.
- Conducted workshops to educate staff on data governance principles.
- Monitored compliance with healthcare regulations affecting AI.
- Provided recommendations to improve data handling practices.

ACHIEVEMENTS

- Successfully implemented AI ethics guidelines that improved patient data security by 25%.
- Recognized for leading a project that enhanced AI usage in clinical decision-making.
- Published research on ethical AI practices in healthcare journals.
