EDUCATION

MASTER OF SCIENCE IN ARTIFICIAL INTELLIGENCE, TECH UNIVERSITY

ACHIEVEMENTS

- Awarded 'Best Team Project' at the Annual Tech Conference for innovative AI solutions.
- Increased customer engagement metrics by 30% through AI-driven product features.
- Presented at various industry conferences on the impact of AI in retail and logistics.

PROFILE

With over 8 years of experience as an AI Product Engineer, I specialize in turning data into actionable insights. My journey began as a data analyst, where I learned the importance of data integrity and analysis. Transitioning into AI product development, I have successfully led cross-functional teams in creating AI solutions that have transformed customer experiences in retail and logistics industries.

EXPERIENCE

LEAD AI PRODUCT ENGINEER

Retail Tech Solutions

2016 - Present

- Directed the development of an AI-powered inventory management system, reducing stock discrepancies by 35%.
- Coordinated with marketing teams to launch a personalized shopping experience powered by AI, leading to a 25% increase in sales.
- Utilized customer feedback to refine AI algorithms, enhancing user satisfaction ratings by 15%.
- Facilitated workshops to educate stakeholders on AI capabilities and project progress.
- Oversaw the deployment of machine learning models, ensuring alignment with business objectives.
- Evaluated emerging AI technologies and proposed strategic implementation plans to improve product offerings.

AI PRODUCT ENGINEER

Logistics Innovations Co.

2014 - 2016

- Developed an AI logistics optimization tool that improved delivery times by 20%.
