### SUMMARY

An accomplished Aircraft Systems Engineer with over 10 years of experience in the aerospace sector, specializing in the design and integration of advanced avionics systems. Demonstrated expertise in leading cross-functional teams to deliver innovative solutions that enhance aircraft performance and safety. Proficient in utilizing state-of-the-art simulation tools and methodologies to assess system reliability and functionality.

### WORK EXPERIENCE

#### Senior Systems Engineer Aerospace Innovations Inc.

Jan 2023 - Present

- Led the design and development of next-generation avionics systems.
- Collaborated with software teams to integrate flight control systems.
- Conducted reliability assessments and risk analysis for new systems.
- Managed project timelines and budgets effectively.
- Developed and implemented testing protocols for system validation.
- Provided technical leadership and training to junior engineers.

#### Systems Engineer SkyTech Solutions

Jan 2020 - Dec 2022

- Designed and simulated aircraft subsystems using advanced CAD tools.
  - Performed integration testing on avionics hardware and software.
  - Analyzed system performance data to identify improvement areas.
  - Developed comprehensive documentation for system specifications.
  - Coordinated with regulatory bodies to ensure compliance.
  - Participated in design reviews and provided feedback on engineering designs.
- 

### EDUCATION

#### Master of Science in Aerospace Engineering, MIT

Sep 2019 - Oct 2020

---

### ADDITIONAL INFORMATION

- **Technical Skills:** Avionics, Systems Integration, Project Management, Risk Analysis, CAD, Testing Protocols
- **Awards/Activities:** Led a project that reduced system failures by 30% through improved testing.
- **Awards/Activities:** Awarded "Engineer of the Year" for outstanding contributions to avionics development.
- **Awards/Activities:** Successfully delivered projects under budget, saving over \$500,000 in costs.
- **Languages:** English, Spanish, French
