

MICHAEL ANDERSON

Rehabilitation Research Coordinator

Dynamic Allied Health Researcher with 7 years of experience in rehabilitation sciences. I focus on the development and evaluation of therapeutic interventions for individuals with physical disabilities. My expertise includes designing and implementing clinical trials that assess the effectiveness of new rehabilitation techniques. I excel in collaborating with healthcare professionals to ensure that research aligns with clinical practice and improves patient outcomes.

- French

WORK EXPERIENCE

Rehabilitation Research Coordinator 2020-2023

Rehab Innovations Group

- Coordinated large-scale clinical trials investigating new rehabilitation protocols for stroke recovery.
- Developed study protocols and ensured compliance with ethical guidelines throughout the research process.
- Analyzed data to evaluate the effectiveness of interventions and presented findings to stakeholders.
- Collaborated with physical therapists to integrate research outcomes into practice.
- Managed participant recruitment and retention strategies to enhance study enrollment.
- Trained staff on research methodologies and data collection techniques.

Clinical Trial Assistant 2019-2020

Health Solutions Center

- Assisted in the management of clinical trials focused on rehabilitation technologies.
- Monitored trial sites for adherence to protocols and regulatory compliance.
- Coordinated data entry and maintained databases to ensure data integrity.
- Conducted site visits to support investigators and address any challenges.
- Participated in team meetings to discuss trial progress and next steps.
- Supported the preparation of reports for regulatory submissions and stakeholder updates.

ACHIEVEMENTS

- Successfully led a trial that resulted in the adoption of a new rehabilitation protocol in clinical settings.
- Published research findings in reputable journals and presented at international conferences.
- Awarded 'Innovative Researcher' by the Rehabilitation Science Society in 2021.
