- French

### EDUCATION

#### MASTER OF SCIENCE IN NATUROPATHIC MEDICINE, BASTYR UNIVERSITY

### ACHIEVEMENTS

- Published a groundbreaking paper on holistic approaches to mental health in a peer-reviewed journal.
- Received the 'Innovator Award' in 2021 for contributions to alternative medicine research.
- Successfully increased patient engagement by 30% through the development of educational programs.

### PROFILE

Results-driven Alternative Medicine Researcher with a unique blend of clinical experience and research acumen. With over 8 years in the field of naturopathic medicine, I specialize in understanding the synergistic effects of various alternative therapies on chronic diseases. My focus has been on developing integrative treatment plans that combine dietary interventions, herbal remedies, and lifestyle modifications.

### EXPERIENCE

#### LEAD RESEARCHER

##### Naturopathic Research Group

2016 - Present

- Led a comprehensive study on the effects of dietary changes in patients with anxiety disorders.
- Designed and validated a questionnaire to assess the quality of life in patients using alternative therapies.
- Collaborated with nutritionists to develop integrative treatment protocols.
- Analyzed research data using statistical software, achieving a 90% accuracy rate in results.
- Presented findings at national conferences, enhancing awareness of alternative medicine.
- Mentored undergraduate interns in research methodologies and data collection techniques.

#### CLINICAL RESEARCH COORDINATOR

##### Natural Healing Institute

2014 - 2016

- Coordinated a multi-site clinical trial assessing the efficacy of herbal treatments for diabetes management.
- Trained staff on proper data collection methods to ensure compliance with research protocols.
- Managed participant recruitment and retention, achieving a 75% enrollment rate.
- Conducted follow-up assessments to monitor patient progress and treatment adherence.
- Developed educational materials for patients regarding alternative treatment options.
- Utilized electronic health records to track patient outcomes and improve data accuracy.
