EDUCATION

MASTER OF SCIENCE IN SOFTWARE ENGINEERING, TECH UNIVERSITY, 2014

ACHIEVEMENTS

- Developed an award-winning app recognized in the 'Best Mobile Application' category at the Tech Innovation Awards.
- Increased user retention rates by 30% through strategic feature enhancements and updates.
- Published several technical articles on Android development that were featured in industry journals.

PROFILE

Detail-oriented Android Software Engineer with over 8 years of experience in the mobile technology sector, specializing in app architecture and design. My expertise lies in developing high-performance applications that are not only functional but also user-friendly. I have a strong grasp of the Android ecosystem and have worked extensively with cloud services, making me adept at creating applications that communicate seamlessly with backend services.

EXPERIENCE

LEAD ANDROID ENGINEER

NextGen Mobile Solutions

2016 - Present

- Architected and developed a feature-rich social media application leading to a user growth of 50% within the first year.
- Oversaw a team of developers, providing guidance and ensuring adherence to coding standards.
- Designed and implemented RESTful APIs to enhance app communication with cloud services.
- Performed extensive code reviews to maintain high-quality standards and reduce technical debt.
- Integrated analytics tools to track user engagement and improve app features based on data insights.
- Collaborated with stakeholders to gather requirements and translate them into technical specifications.

ANDROID SOFTWARE ENGINEER

Digital Craft Co.

2014 - 2016

- Worked on a variety of Android applications catering to diverse client needs, achieving high customer satisfaction ratings.
- Implemented new features based on user feedback, increasing app retention by 35%.
- Utilized Firebase for real-time data updates and push notifications.
- Conducted performance tuning efforts that reduced application crashes by 20%.
- Engaged in regular communication with cross-functional teams to ensure seamless project execution.
- Documented technical specifications and user guides for ongoing maintenance and knowledge sharing.
