EXPERTISE SKILLS

- Genetic selection
- Reproductive management
- AI techniques
- Data analysis
- Sustainable practices
- Educational outreach

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Animal Science, State University, 2017

MICHAEL ANDERSON

SMALL RUMINANT BREEDING SPECIALIST

A dedicated Animal Breeding Specialist specializing in small ruminants with over 6 years of experience in sheep and goat breeding programs. Expertise lies in genetic selection and reproductive management aimed at improving meat and wool production efficiency. Skilled in applying advanced reproductive technologies, including AI and synchronization protocols, to optimize breeding success rates.

PROFESSIONAL EXPERIENCE

Ruminant Genetics Group   *Mar 2018 - Present*
Small Ruminant Breeding Specialist

- Developed breeding programs to enhance sheep and goat production traits.
- Implemented synchronization protocols to improve AI success rates.
- Conducted genetic evaluations to inform breeding decisions.
- Collaborated with farmers to optimize herd management practices.
- Maintained comprehensive breeding records and data analysis.
- Provided educational workshops on best breeding practices.

Farm to Table Livestock   *Dec 2015 - Jan 2018*
Breeding Technician

- Assisted in the execution of breeding programs for small ruminants.
- Monitored health and reproductive cycles of breeding stock.
- Maintained accurate records of breeding activities and outcomes.
- Supported the implementation of sustainable farming practices.
- Engaged in outreach efforts to educate farmers on genetics.
- Participated in research projects to improve breeding methodologies.

ACHIEVEMENTS

- Increased breeding success rates by 40% through innovative techniques.
- Developed a successful training program for local farmers.
- Awarded 'Best New Specialist' in 2020 for contributions to the field.
