MICHAEL ANDERSON

POULTRY PRODUCTION MANAGER

Seasoned Animal Husbandry Scientist specializing in poultry and aquaculture with over 12 years of experience in enhancing production efficiency and sustainability. Expert in applying advanced breeding techniques and nutritional strategies to improve growth rates and health outcomes. Strong analytical skills complemented by a comprehensive understanding of market dynamics and consumer preferences.

PROFESSIONAL EXPERIENCE

AgriTech Farms

Mar 2018 - Present

Poultry Production Manager

- Oversaw daily operations of poultry production, ensuring high standards of animal care.
- Implemented biosecurity measures to prevent disease outbreaks.
- Developed feeding programs that optimized growth and feed conversion ratios.
- Monitored health indicators and coordinated veterinary care.
- Analyzed production data to inform management decisions.
- Trained staff on best practices in poultry husbandry.

Marine Life Research Institute

Dec 2015 - Jan 2018

Aquaculture Research Associate

- Conducted research on fish nutrition and feeding strategies.
- Evaluated the impact of environmental factors on aquaculture productivity.
- Collaborated with industry partners to develop sustainable practices.
- Presented research findings at international aquaculture conferences.
- Managed laboratory experiments and data collection protocols.
- Mentored undergraduate students in research techniques.

ACHIEVEMENTS

- Increased poultry production efficiency by 25% through optimized feeding.
- Published research in leading aquaculture journals.
- Received the Best Paper Award at the International Aquaculture Conference.
