SKILLS

- Ruminant nutrition
- Health management
- Data monitoring
- Stakeholder engagement
- Research skills
- Training development

LANGUAGES

- English
- Spanish
- French

EDUCATION

**B.SC. IN ANIMAL SCIENCE,
UNIVERSITY OF FLORIDA**

ACHIEVEMENTS

- Increased milk production by 15% through nutritional interventions.
- Published findings in national agricultural journals.
- Received recognition for excellence in research contributions.

WORK EXPERIENCE

RUMINANT NUTRITION SPECIALIST

Dairy Innovations Co.

2020 - 2025

- Developed nutritional programs for dairy cattle to improve milk yield.
- Conducted feeding trials to assess the impact of diet on animal health.
- Collaborated with farmers to implement best practices in nutrition management.
- Utilized technology for real-time monitoring of herd health.
- Provided training on nutritional strategies to farm staff.
- Analyzed production data to optimize feeding regimens.

ANIMAL HEALTH RESEARCH ASSISTANT

Agricultural Research Service

2015 - 2020

- Assisted in research on the effects of stress on ruminant health.
- Conducted field surveys to collect data on animal performance.
- Participated in the development of health management protocols.
- Supported the analysis of research data and reporting.
- Engaged with local farmers to disseminate research findings.
- Contributed to grant proposals for funding research projects.
