

MICHAEL ANDERSON

Swine Production Manager

Experienced Animal Husbandry Scientist with a comprehensive background in swine production and health management. Over 11 years of hands-on experience in optimizing production systems and improving animal welfare standards. Proven expertise in implementing biosecurity protocols and managing breeding programs to enhance herd quality. Strong analytical skills with a focus on data-driven decision-making to improve operational efficiencies.

WORK EXPERIENCE

Swine Production Manager

2020-2023

Pork Producers Cooperative

- Managed daily operations of swine production, focusing on health and welfare.
- Implemented biosecurity measures to minimize disease risk.
- Developed breeding strategies to improve growth rates and meat quality.
- Monitored production data to drive management decisions.
- Trained staff on animal handling and production techniques.
- Collaborated with veterinarians on herd health management.

Animal Health Technician

2019-2020

Veterinary Services Group

- Supported swine health programs through monitoring and treatment protocols.
- Conducted health assessments on livestock for disease prevention.
- Assisted in developing vaccination schedules and health records.
- Engaged with producers to provide education on health management.
- Participated in research projects on disease resistance.
- Contributed to the development of biosecurity training programs.

ACHIEVEMENTS

- Increased swine production efficiency by 30% through strategic management.
- Published findings in industry-leading journals.
- Recognized for contributions to animal health and welfare initiatives.
