

Michael ANDERSON

AQUACULTURE NUTRITIONIST

Innovative Animal Nutrition Scientist with 5 years of experience in aquaculture nutrition. My passion for aquatic animal health has driven me to specialize in the formulation of diets that enhance growth and sustainability in fish farming. I have worked on projects that focus on optimizing feed formulations for various fish species, resulting in improved feed conversion ratios and reduced environmental impact.

SKILLS

- Aquaculture nutrition
- Feed formulation
- Data analysis
- Research
- Training
- Outreach

LANGUAGES

- English
- Spanish
- French

EDUCATION

**B.S. IN AQUACULTURE, MARINE
UNIVERSITY, 2015**

ACHIEVEMENTS

- Improved feed conversion rates by 25% through innovative diet formulations.
- Recognized for outstanding contributions to sustainable aquaculture practices.
- Published research on the impact of dietary supplements on fish health.

WORK EXPERIENCE

AQUACULTURE NUTRITIONIST

AquaFeed Innovations

2020 - 2025

- Developed nutritional programs for over 20 species of fish.
- Conducted field studies to assess the effectiveness of new feed formulations.
- Collaborated with aquaculture farms to optimize feeding strategies.
- Utilized data analytics tools to track growth performance metrics.
- Presented research findings at aquaculture conferences.
- Trained farm staff on best practices in nutrition and feeding.

RESEARCH ASSISTANT

Aquatic Research Institute

2015 - 2020

- Assisted in research projects focused on fish nutrition and health.
- Conducted laboratory analyses on feed ingredients.
- Maintained detailed records of experimental procedures and results.
- Collaborated with a team on the development of sustainable feeding protocols.
- Participated in outreach programs to educate local fish farmers.
- Authored reports summarizing research findings for stakeholders.
