- michael.anderson@email.com

As a recent graduate with a Bachelor of Science in Animal Science, I am eager to start my career as an Animal Nutrition Specialist. My academic experience has provided me with a solid foundation in animal biology and nutritional science. During my studies, I completed an internship where I assisted in developing nutrition plans for farm animals, and I gained hands-on experience in feed formulation and analysis.

WORK EXPERIENCE

Intern - Animal Nutrition | Green Pastures Farm

Jan 2022 – Present

- Assisted in formulating diets for various livestock, contributing to a 10% improvement in growth rates.
- Conducted feed quality assessments to ensure compliance with nutritional standards.
- Participated in workshops on animal nutrition, enhancing my knowledge and practical skills.
- Supported the development of educational materials for farmers on nutrition best practices.
- Collaborated with team members to analyze animal performance data related to nutrition.
- Engaged in community outreach initiatives to raise awareness about proper animal feeding.

Research Assistant | University of Animal Science

Jul 2019 – Dec 2021

- Conducted literature reviews on animal nutrition, contributing to ongoing research projects.
- Assisted in data collection for studies assessing the impact of diet on animal health.
- Presented findings to faculty and students, enhancing my communication skills.
- Collaborated with peers on research initiatives, fostering teamwork and problem-solving.
- Participated in workshops and seminars to broaden my understanding of animal nutrition.
- Developed a passion for research that I aim to pursue in my career.
