

MICHAEL ANDERSON

POULTRY NUTRITION SPECIALIST

PROFILE

A dynamic and results-oriented Animal Nutritionist with a decade of experience specializing in the nutritional requirements of poultry production. Demonstrates a comprehensive understanding of avian physiology and the impact of diet on growth performance and egg production. Skilled in formulating high-quality feed rations that meet the specific needs of different poultry breeds.

EXPERIENCE

POULTRY NUTRITION SPECIALIST

Avian Nutrition Group

2016 - Present

- Formulated balanced diets for broilers and layers, improving feed conversion rates.
- Conducted field trials to evaluate new feed ingredients and additives.
- Collaborated with veterinarians to monitor flock health and productivity.
- Provided on-site training for farm staff on nutritional practices.
- Analyzed performance data to recommend dietary adjustments.
- Developed marketing materials to promote new nutritional products.

ANIMAL NUTRITION CONSULTANT

Farm Solutions Corp.

2014 - 2016

- Advised poultry farmers on feed management strategies and nutritional programs.
- Evaluated the economic impact of nutritional changes on farm profitability.
- Worked with feed mills to ensure quality control in feed production.
- Presented findings and recommendations to stakeholders and clients.
- Assisted in the development of educational workshops for producers.
- Maintained up-to-date knowledge of industry trends and research.
