CHIEF CONSERVATOR

Highly skilled antique metal restoration expert with a robust background of over 18 years in the conservation and restoration of metal artifacts. Recognized for the ability to combine artistic insight and technical expertise to achieve exceptional restoration results. Extensive experience in evaluating the condition of artifacts and implementing customized restoration solutions that respect historical integrity.

WORK EXPERIENCE

CHIEF CONSERVATOR
Legacy Art Restoration
2020 - 2025

- Led a team of conservators in the restoration of high-value metal artifacts.
- Developed guidelines for best practices in metal conservation.
- Collaborated with art historians to ensure fidelity in restoration processes.
- Conducted condition assessments and provided detailed reports to clients.
- Organized community workshops to raise awareness about metal preservation.
- Implemented a tracking system for restoration projects to monitor progress.

RESTORATION ASSOCIATE
Museum of Historical Artifacts
2015 - 2020

- Assisted senior conservators in the restoration of various metal pieces.
- Learned to apply conservation treatments under supervision.
- Participated in the documentation of restoration processes.
- Contributed to research on metal degradation and preservation.
- Supported public exhibitions showcasing restoration projects.
- Engaged with visitors to educate them about conservation efforts.
