MICHAEL ANDERSON

ENVIRONMENTAL GEOLOGIST

Proactive Applied Geologist with 6 years of experience in environmental consulting and site remediation. Demonstrated ability to manage complex environmental assessments and implement sustainable solutions to mitigate site contamination. Skilled in conducting soil and groundwater investigations, utilizing cutting-edge analytical techniques and technologies. Effective communicator with a strong commitment to health, safety, and environmental stewardship.

PROFESSIONAL EXPERIENCE

Green Earth Consulting

Mar 2018 - Present

Environmental Geologist

- Conducted Phase I and II Environmental Site Assessments for various commercial properties.
- Utilized GIS tools to map contamination sites and analyze data trends.
- Implemented remediation strategies that reduced contaminants by over 80%.
- Collaborated with local governments to ensure compliance with environmental regulations.
- Prepared comprehensive reports for clients detailing assessment findings and recommendations.
- Engaged in community outreach to educate stakeholders on environmental issues.

EnviroTech Solutions

Dec 2015 - Jan 2018

Geologist Intern

- Assisted in groundwater sampling and monitoring activities at contaminated sites.
- Conducted literature reviews to support environmental assessments.
- Participated in field investigations to collect soil and water samples.
- Developed spreadsheets for data management and analysis.
- Supported senior geologists in preparing assessment reports.
- Learned to operate groundwater monitoring equipment effectively.

ACHIEVEMENTS

- Recognized for excellence in project management during a major remediation project.
- Contributed to research published in a leading environmental journal.
- Received commendation for community education initiatives in 2019.
