SKILLS

- Mining Geology
- Resource Estimation
- Geological Mapping
- MineSight
- Safety Protocols
- Community Engagement

EDUCATION

BACHELOR'S IN GEOLOGY, UNIVERSITY OF NEVADA, RENO

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Played a key role in a project that increased resource estimates by 25%.
- Contributed to a successful mining operation recognized for environmental best practices.
- Presented at multiple industry conferences, enhancing professional visibility.

Michael Anderson

MINING GEOLOGIST

Innovative Applied Geologist with 9 years of experience in mining geology and resource estimation. Strong background in conducting geological surveys and assessments to identify mineral resources and assess their economic viability. Proficient in using geological software for modeling and resource estimation, with a focus on optimizing extraction techniques. Experienced in collaborating with engineers and environmental specialists to ensure sustainable mining practices.

EXPERIENCE

MINING GEOLOGIST

Mineral Exploration Corp.

2016 - Present

- Conducted geological mapping and sampling for mineral resource assessment.
- Utilized MineSight software for resource modeling and estimation.
- Collaborated with mining engineers to develop effective extraction plans.
- Implemented safety protocols to minimize risks during exploration activities.
- Presented geological findings to stakeholders to support investment decisions.
- Trained junior geologists on industry best practices and software usage.

GEOLOGICAL TECHNICIAN

Resource Consultants Inc.

2014 - 2016

- Assisted in fieldwork for mineral exploration, collecting rock and soil samples.
- Conducted laboratory tests on samples to determine mineral composition.
- Utilized GIS software to create maps for exploration projects.
- Supported senior geologists in preparing technical reports.
- Participated in community engagement initiatives regarding mining impacts.
- Maintained accurate records of exploration activities and findings.
