MICHAEL ANDERSON

HEALTH RESEARCH ASSOCIATE

I am an Applied Sociologist with a focus on health disparities and community health research. Over the past 6 years, I have dedicated my career to understanding the social determinants of health and how they impact vulnerable populations. My work involves conducting in-depth research and collaborating with public health officials to design interventions that address health inequities.

PROFESSIONAL EXPERIENCE

Public Health Solutions

Mar 2018 - Present

Health Research Associate

- Conducted research on health disparities affecting low-income communities.
- Collaborated with healthcare providers to assess the effectiveness of community health initiatives.
- Designed surveys and focus groups to gather community input on health services.
- Analyzed health data using statistical software to identify trends and outcomes.
- Presented findings to public health officials to inform policy decisions.
- Authored research papers that contributed to the body of knowledge on health equity.

Center for Health Equity

Dec 2015 - Jan 2018

Sociology Research Intern

- Assisted in data collection for studies on social determinants of health.
- Conducted literature reviews to support ongoing research projects.
- Supported the development of community health education materials.
- Engaged with community members to gather qualitative data on health experiences.
- Participated in team meetings to discuss research strategies and findings.
- Contributed to grant proposals focused on health equity initiatives.

ACHIEVEMENTS

- Developed a health intervention that improved access to services for 500+ residents.
- Received the 'Emerging Leader Award' from the National Public Health Association.
- Published articles in health journals on the impact of social determinants.
