WORK EXPERIENCE

Veterinary Technician

2020-2023

Aquatic Wellness Center

- Provided veterinary care and treatment for a variety of aquaculture species.
- Assisted in the diagnosis and management of aquatic diseases.
- Conducted health checks and monitored fish conditions regularly.
- Educated farm staff on disease prevention and management techniques.
- Collaborated with veterinarians to develop treatment plans for affected populations.
- Participated in community outreach programs to promote fish health awareness.

Aquaculture Health Assistant

2019-2020

Sustainable Aquaculture Group

- Supported health assessments and disease monitoring initiatives in aquaculture facilities.
- Assisted in data collection for health management reporting.
- Monitored water quality and environmental parameters for optimal fish health.
- Participated in training sessions on disease recognition and management.
- Contributed to research projects focused on improving aquaculture practices.
- Engaged with local farmers to enhance knowledge of fish health issues.

ACHIEVEMENTS

- Improved health outcomes in aquaculture facilities through enhanced monitoring practices.
- Recognized for outstanding contribution to community health education initiatives.
- Successfully implemented a disease reporting system that increased incident awareness.
