SKILLS

- Aquaculture technology
- Data analytics
- Operational efficiency
- Training and development
- Software development
- Quality control

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF TECHNOLOGY IN
AQUACULTURE SYSTEMS, UNIVERSITY
OF TECHNOLOGY, 2017**

ACHIEVEMENTS

- Increased production efficiency by 35% through technology integration.
- Developed a proprietary aquaculture management software used by 50+ farms.
- Recognized as a leader in aquaculture technology by the Aquaculture Innovation Forum.

WORK EXPERIENCE

AQUACULTURE TECHNOLOGY SPECIALIST

TechAquaculture Solutions

2020 - 2025

- Developed and implemented technology solutions for aquaculture operations.
- Conducted training sessions on data analytics tools for aquaculture professionals.
- Collaborated with software developers to create aquaculture management apps.
- Monitored technological advancements to recommend best practices.
- Assisted clients in integrating technology into their aquaculture systems.
- Published white papers on the impact of technology in aquaculture.

AQUACULTURE OPERATIONS MANAGER

Future Fish Farms

2015 - 2020

- Oversaw daily operations of aquaculture facilities, enhancing productivity.
- Implemented quality control measures that reduced waste by 20%.
- Trained staff on best practices for technology utilization in aquaculture.
- Analyzed production data to optimize feeding strategies.
- Collaborated with stakeholders to align operations with sustainability goals.
- Presented findings on operational efficiency at industry conferences.
