

MICHAEL ANDERSON

LEAD AQUACULTURE NUTRITIONIST

PROFILE

Performance-driven Aquaculture Feed Technologist with extensive experience in formulating and optimizing aquaculture feeds tailored to diverse species. Demonstrated ability to leverage scientific research and practical applications to enhance feed quality and sustainability. Expertise in conducting trials and analyzing results to drive product improvements. Strong leadership skills complemented by a collaborative approach to working with multidisciplinary teams.

EXPERIENCE

LEAD AQUACULTURE NUTRITIONIST

Marine Feed Innovations

2016 - Present

- Oversaw the development of advanced aquaculture feeds, focusing on species-specific nutritional requirements.
- Implemented a comprehensive trial protocol that improved feed conversion ratios by 18%.
- Collaborated with academic institutions to integrate cutting-edge research into product development.
- Managed cross-departmental projects aimed at enhancing feed sustainability.
- Conducted workshops for aquaculture producers on best feeding practices.
- Enhanced customer satisfaction by providing tailored technical support and solutions.

AQUACULTURE FEED SPECIALIST

Global Aqua Solutions

2014 - 2016

- Conducted extensive market research to identify trends in aquaculture feed demands.
- Formulated and tested new feed products, resulting in a 25% improvement in palatability.
- Developed training programs for staff on nutritional formulation techniques.
- Utilized statistical software for data analysis and reporting on feed performance.
- Established partnerships with suppliers to enhance feed ingredient sourcing.
- Presented research findings to stakeholders, facilitating informed decision-making.
