EXPERTISE SKILLS

- Larval development
- Fish nutrition
- Water quality monitoring
- Breeding programs
- Equipment maintenance
- Team collaboration

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Fisheries and Aquaculture, Aquatic University, 2016

MICHAEL ANDERSON

HATCHERY TECHNICIAN

A dedicated Aquaculture Hatchery Specialist with over 6 years of experience in the hatchery sector, specializing in larval development and fish nutrition.

Demonstrates a comprehensive understanding of the biological aspects of aquaculture and the application of best practices in hatchery management. Proven ability to adapt to new technologies and methodologies to enhance production outcomes.

PROFESSIONAL EXPERIENCE

Aquatic Innovations

Mar 2018 - Present

Hatchery Technician

- Assisted in the daily operations of larval rearing and feeding.
- Monitored and recorded water quality parameters regularly.
- Participated in breeding programs to enhance genetic stock.
- Implemented feeding regimens based on nutritional research.
- Maintained hatchery equipment and ensured functionality.
- Collaborated with team members to optimize hatchery practices.

Marine Research Institute

Dec 2015 - Jan 2018

Aquaculture Research Intern

- Supported research projects focused on larval health and nutrition.
- Assisted in data collection and analysis for various experiments.
- Maintained accurate records of experimental results.
- Engaged in outreach activities to promote aquaculture awareness.
- Participated in team meetings and contributed ideas for improvement.
- Learned best practices in hatchery management from experienced staff.

ACHIEVEMENTS

- Contributed to a project that improved larval survival rates by 15%.
- Received commendation for outstanding performance during internship.
- Developed a feeding guide that was adopted by the hatchery.
