SKILLS

- Feed Formulation
- Nutrition Management
- Research Collaboration
- Data Analysis
- Project Management
- Educational Outreach

EDUCATION

**MASTER OF SCIENCE IN AQUACULTURE
NUTRITION, COASTAL UNIVERSITY**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved feed conversion ratios by 15% through innovative formulation techniques.
- Recognized for contributions to the development of sustainable feed practices.
- Published multiple articles in respected aquaculture journals on nutrition advancements.

Michael Anderson

FEED FORMULATION SPECIALIST

Innovative Aquaculture Technology Specialist with a focus on nutrition management and feed formulation for aquaculture species. Over 8 years of experience in developing and optimizing feed formulations to promote health and growth in aquatic organisms. Proven ability to conduct feeding trials and analyze nutritional data to enhance feed efficacy. Expertise in collaborating with nutritionists and researchers to create sustainable feed solutions that align with industry standards.

EXPERIENCE

FEED FORMULATION SPECIALIST

Aquaculture Nutrition Solutions

2016 - Present

- Developed and tested innovative feed formulations for various fish species.
- Conducted feeding trials to evaluate the performance of different feed types.
- Analyzed nutritional data to make recommendations for feed improvements.
- Collaborated with suppliers to source high-quality ingredients for formulations.
- Presented research findings at industry conferences to share knowledge.
- Managed projects to ensure timely delivery of feed formulation initiatives.

AQUACULTURE RESEARCH ASSOCIATE

Marine Feed Innovations

2014 - 2016

- Conducted research on the nutritional requirements of various aquaculture species.
- Collaborated with cross-functional teams to develop nutritionally balanced feeds.
- Monitored feed performance and adjusted formulations based on results.
- Engaged in outreach to educate stakeholders on the importance of feed quality.
- Published research papers in peer-reviewed journals to enhance industry knowledge.
- Participated in product development meetings to align with market needs.
