EDUCATION

BACHELOR'S IN AGRICULTURAL SCIENCES, UNIVERSITY OF FLORIDA, 2012

ACHIEVEMENTS

- Increased community participation in urban farming programs by 50% within two years.
- Developed a successful aquaponics pilot project that led to the establishment of five new urban farms.
- Received the Community Impact Award from the Urban Agriculture Coalition in 2021.

PROFILE

Dynamic Aquaponics Specialist with a robust background in urban agriculture and community engagement. Over 8 years of experience in developing aquaponics systems tailored for urban environments, focusing on maximizing space efficiency and resource conservation. Proven ability to educate diverse audiences on the principles of aquaponics, fostering a deeper understanding of sustainable food production.

EXPERIENCE

URBAN AQUAPONICS COORDINATOR

City Green Projects

2016 - Present

- Developed aquaponics systems for urban farms, maximizing limited space.
- Conducted community workshops to educate residents on sustainable practices.
- Collaborated with local schools to integrate aquaponics into their science curriculum.
- Implemented a volunteer program to engage the community in system maintenance.
- Utilized social media to promote community aquaponics initiatives.
- Monitored system performance and made recommendations for improvements.

AQUAPONICS EDUCATOR

Green Futures Academy

2014 - 2016

- Designed and delivered curriculum focused on aquaponics and sustainable agriculture.
- Facilitated hands-on training sessions for students and community members.
- Enhanced student engagement through interactive learning experiences.
- Collaborated with local farmers to provide real-world insights into aquaponics.
- Monitored student progress and adjusted teaching methods accordingly.
- Participated in community events to raise awareness about sustainable food systems.
