Michael ANDERSON

AQUAPONICS FARM MANAGER

Dedicated Aquaponics Specialist with a strong focus on commercial aquaponics operations. Over 5 years of hands-on experience in managing aquaponics farms, ensuring optimal production of both fish and plants. Holds a Bachelor's degree in Horticulture, providing a solid foundation in plant science and cultivation techniques. Skilled in operational management, including labor supervision, resource allocation, and system maintenance.

WORK EXPERIENCE

AQUAPONICS FARM MANAGER

Freshwater Farms

2020 - 2025

- Managed daily operations of a commercial aquaponics farm.
- Oversaw fish and plant health, ensuring compliance with safety standards.
- Implemented efficient scheduling for labor and resources.
- Trained staff on best practices in aquaponics management.
- Monitored water quality and system performance regularly.
- Developed marketing strategies to promote farm products.

ASSISTANT FARM MANAGER

EcoHarvest Aquaponics

2015 - 2020

- Assisted in managing day-to-day farm operations and staff.
- Supported system maintenance and troubleshooting.
- Coordinated planting and harvesting schedules.
- Maintained inventory of supplies and equipment.
- Engaged with customers to promote farm produce.
- Conducted regular training sessions for new employees.
