SKILLS

- IoT integration
- system development
- user interface design
- agricultural technology
- data analysis
- project collaboration

EDUCATION

**BACHELOR'S IN COMPUTER SCIENCE,
UNIVERSITY OF ILLINOIS, 2019**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Developed a smart aquaponics prototype that won first place in a tech competition.
- Increased system efficiency by 20% through automation and monitoring solutions.
- Published a paper on technology in aquaponics at a national conference.

Michael Anderson

AQUAPONICS SYSTEMS DEVELOPER

Innovative Aquaponics Specialist with a focus on integrating technology into aquaculture and agriculture practices. Over 4 years of experience in developing smart aquaponics systems that leverage IoT and automation for enhanced productivity. Holds a Bachelor's degree in Computer Science with a minor in Agricultural Technology, bridging the gap between technology and sustainable practices.

EXPERIENCE

AQUAPONICS SYSTEMS DEVELOPER

AgriTech Solutions

2016 - Present

- Developed IoT-enabled aquaponics systems for real-time monitoring.
- Designed user interfaces for system management applications.
- Collaborated with engineers to integrate automation technologies.
- Conducted testing to ensure system reliability and performance.
- Provided technical support and training for users.
- Participated in industry hackathons to foster innovation.

RESEARCH ASSISTANT

Smart Farming Institute

2014 - 2016

- Assisted in research on technology applications in aquaponics.
- Collected and analyzed data to improve system designs.
- Supported the development of educational resources on tech integration.
- Engaged in outreach to promote technology in agriculture.
- Contributed to grant proposals for tech-based projects.
- Collaborated with interdisciplinary teams on research initiatives.
