### EDUCATION

**M.Sc. in Aquatic Ecology**  
University of Marine Sciences  
2014

### SKILLS

- Aquatic habitat assessment
- community engagement
- ecological monitoring
- data analysis
- conservation strategy development
- public education

### LANGUAGES

- English
- Spanish
- French

### WORK EXPERIENCE

**Aquatic Habitat Specialist** 2020-2023  
EcoWater Solutions

- Conducted assessments of aquatic habitats to determine ecological health.
- Developed conservation strategies in collaboration with local communities.
- Utilized remote sensing technologies for habitat monitoring.
- Engaged stakeholders in habitat restoration initiatives.
- Authored technical reports influencing regional conservation policies.
- Organized educational campaigns to raise awareness about aquatic ecosystems.

**Ecological Research Assistant** 2019-2020  
Institute for Aquatic Studies

- Assisted in field research on aquatic species and ecosystems.
- Analyzed data to support conservation research initiatives.
- Participated in community outreach programs to promote aquatic health.
- Contributed to the development of educational materials for stakeholders.
- Supported grant writing efforts for funding aquatic projects.
- Presented research findings in local community forums.

### ACHIEVEMENTS

- Led a community project that increased local biodiversity by 25%.
- Published 6 articles in ecological journals on habitat restoration.
- Secured \$150,000 in funding for community conservation projects.
