EDUCATION

BACHELOR'S IN EDUCATION WITH AI TECHNOLOGY MINOR, STATE UNIVERSITY

ACHIEVEMENTS

- Increased student interest in STEM subjects by 50% through AI programs.
- Recognized as 'Teacher of the Year' for excellence in AI education.
- Secured grants to fund AI technology initiatives in local schools.

I am an Artificial Intelligence Educator with a strong focus on K-12 education, possessing over 6 years of experience in integrating AI into school curricula. My journey began as a classroom teacher, where I quickly recognized the potential of AI to transform learning experiences for students. I have since dedicated my career to developing engaging AI programs that inspire young minds to explore technology and innovation.

WORK EXPERIENCE

K-12 AI CURRICULUM DEVELOPER
Future Tech Schools
2020 - 2025

- Created AI curriculum for K-12 students that promotes critical thinking.
- Facilitated workshops for teachers on implementing AI tools in classrooms.
- Developed interactive projects that align with state education standards.
- Collaborated with tech companies to provide resources for student learning.
- Evaluated student progress and adjusted curriculum based on feedback.
- Presented at educational conferences on AI in K-12 education.

AI EDUCATOR
Innovative Learning Academy
2015 - 2020
