As an Artificial Intelligence Researcher with a focus on educational technology, I have dedicated over 5 years to developing AI tools that enhance learning experiences. My journey began with a degree in educational psychology, which inspired my interest in how technology can improve educational outcomes. I have designed intelligent tutoring systems and personalized learning platforms that adapt to individual student needs.

SKILLS

- Artificial Intelligence
- Educational Technology
- Data Analysis
- Python
- SQL
- User Experience

EDUCATION

MASTER'S IN EDUCATIONAL TECHNOLOGY, UNIVERSITY OF SOUTHERN CALIFORNIA, 2017

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Developed a learning platform that won the EdTech Innovation Award.
- Published research on AI's impact on education in leading journals.
- Secured a $200,000 grant for an AI project aimed at improving literacy rates.

EXPERIENCE

AI EDUCATION RESEARCHER

LearnTech Solutions

2016 - Present

- Developed AI-driven tutoring systems that improved student engagement by 25%.
- Collaborated with educators to gather feedback for continuous product improvement.
- Analyzed user data to personalize learning experiences for diverse learners.
- Presented findings at educational technology conferences, promoting best practices.
- Conducted user testing to enhance product usability and effectiveness.
- Authored articles on AI in education for industry publications.

DATA ANALYST IN EDUCATION

EduData Insights

2014 - 2016

- Analyzed educational data to inform development of AI learning tools.
- Worked with software developers to integrate AI features into educational platforms.
- Conducted research on student performance and learning outcomes.
- Participated in workshops to share insights on data-driven education practices.
- Designed dashboards for educators to visualize data insights.
- Assisted in grant proposals to secure funding for educational AI projects.
