MICHAEL ANDERSON

ASSESSMENT DESIGNER

Innovative Assessment and Measurement Specialist with a robust background in the technology sector, focusing on developing assessments for educational software and e-learning platforms. With over 6 years of experience, I have successfully created measurement tools that evaluate user engagement and learning outcomes. My expertise in data analytics and user experience research enables me to provide actionable insights to product development teams.

PROFESSIONAL EXPERIENCE

TechEd Solutions

Mar 2018 - Present

Assessment Designer

- Designed assessments for a new e-learning platform, resulting in a 40% increase in user engagement.
- Conducted usability tests to refine assessment interfaces, enhancing user satisfaction ratings.
- Collaborated with instructional designers to create aligned assessment items, improving overall course effectiveness.
- Analyzed user data to identify trends, informing future product enhancements.
- Developed training materials for educators on utilizing assessments within the platform.
- Presented findings at industry conferences, establishing thought leadership in educational technology assessments.

Innovate Learning Corp.

Dec 2015 - Jan 2018

Measurement Analyst

- Conducted comprehensive assessments of online learning tools, resulting in a redesign that improved learning outcomes by 25%.
- Developed metrics to evaluate the effectiveness of digital assessments, impacting product strategy.
- Collaborated with software development teams to ensure assessment tools were user-friendly and aligned with educational standards.
- Facilitated focus groups with users to gather feedback on assessment features and functionality.
- Utilized analytics software to track user engagement and assessment performance metrics.
- Contributed to the development of a new assessment framework that was implemented across all digital products.

ACHIEVEMENTS

- Awarded the Innovative Educator Award in 2021 for contributions to assessment design in technology.
- Successfully led a project that integrated adaptive assessments into a learning platform, enhancing personalized learning.
- Presented research findings on digital assessment trends at a national conference, gaining positive feedback from peers.
