EDUCATION

BACHELOR'S IN HEALTH SCIENCES, UNIVERSITY OF FLORIDA, 2016

ACHIEVEMENTS

- Winner of the Healthcare Research Excellence Award for outstanding project outcomes.
- Developed a patient feedback system that increased response rates by 25%.
- Published findings on patient care assessments in a peer-reviewed journal.

PROFILE

I am a dedicated Assessment Researcher with over 5 years of experience in the healthcare sector, focusing on the evaluation of clinical assessments and patient outcomes. My approach combines rigorous research methodologies with a strong understanding of healthcare practices, allowing me to design assessments that not only measure effectiveness but also contribute to improved patient care.

EXPERIENCE

CLINICAL ASSESSMENT RESEARCHER

Health Innovations Group

2016 - Present

- Developed and validated clinical assessment tools for evaluating patient outcomes.
- Performed data analysis using SAS and R to identify trends in patient health metrics.
- Collaborated with physicians to align assessments with treatment protocols.
- Presented research findings at healthcare conferences, enhancing visibility for the organization.
- Managed projects to assess the effectiveness of new treatment interventions, resulting in a 20% improvement in patient satisfaction.
- Participated in interdisciplinary teams to ensure comprehensive evaluation of patient care practices.

RESEARCH ASSISTANT

City Hospital

2014 - 2016

- Assisted in the development of quality improvement assessments for hospital services.
- Conducted surveys and interviews to gather data on patient experiences.
- Utilized Excel for data management and preliminary analysis of patient feedback.
- Supported senior researchers in analyzing the effectiveness of care delivery models.
- Contributed to the preparation of reports for hospital administration, influencing policy changes.
- Coordinated focus groups to evaluate new patient care initiatives.
