MICHAEL ANDERSON

SENIOR AUTOMATION MAINTENANCE ENGINEER

Results-oriented Automation Maintenance Engineer with over 12 years of experience in the pharmaceutical industry, known for expertise in maintaining high-precision automated systems. Possesses a thorough understanding of GMP regulations and the critical role of automation in ensuring product quality and compliance. Demonstrates a strong analytical mindset with the ability to troubleshoot complex issues swiftly.

PROFESSIONAL EXPERIENCE

PharmaTech Industries

Mar 2018 - Present

Senior Automation Maintenance Engineer

- Led maintenance operations for automated systems in compliance with GMP standards.
- Implemented a predictive maintenance program that reduced downtime by 30%.
- Conducted risk assessments and developed mitigation strategies.
- Collaborated with quality assurance to ensure product integrity.
- Managed a team of technicians in troubleshooting and repairs.
- Streamlined maintenance processes to improve efficiency.

BioPharma Solutions

Dec 2015 - Jan 2018

Automation Specialist

- Maintained and calibrated automated equipment for drug production.
- Assisted in the validation of new automation technologies.
- Monitored system performance and reported anomalies.
- Documented maintenance procedures and compliance reports.
- Participated in training sessions to enhance technician skills.
- Collaborated with engineering teams on system upgrades.

ACHIEVEMENTS

- Reduced maintenance costs by 25% through effective resource management.
- Recognized for excellence in compliance audits with zero findings.
- Led a project that enhanced production capacity by 15% without additional costs.
