MICHAEL ANDERSON

CLOUD AUTOMATION ENGINEER

A dynamic Automation Software Engineer with a solid foundation in software development and a focus on cloud-based automation solutions. With over 7 years of experience, this professional has successfully developed and implemented automation frameworks that streamline operations and enhance user experiences. Proficient in utilizing modern cloud technologies and tools, such as AWS and Azure, to deploy scalable automation solutions.

PROFESSIONAL EXPERIENCE

CloudTech Solutions   *Mar 2018 - Present*
Cloud Automation Engineer

- Developed cloud-based automation scripts using AWS Lambda.
- Integrated CI/CD pipelines for automated deployment processes.
- Collaborated with product teams to define automation requirements.
- Conducted system performance assessments and optimizations.
- Maintained documentation for automation processes and configurations.
- Provided training sessions for teams on cloud automation tools.

Tech Innovators LLC   *Dec 2015 - Jan 2018*
Software Developer

- Created automation scripts to improve software testing processes.
- Participated in agile development sprints to deliver features.
- Utilized Git for version control and collaboration.
- Assisted in the development of API automation tests.
- Monitored application performance and reported issues.
- Engaged in code reviews to enhance software quality.

ACHIEVEMENTS

- Reduced deployment time by 50% through automation of processes.
- Recognized as 'Top Performer' for outstanding contributions to project delivery.
- Successfully implemented a cloud automation solution that improved system uptime by 20%.
