

# MICHAEL ANDERSON

## LEAD AUTOMATION ENGINEER

### PROFILE

An accomplished Automation Systems Engineer specializing in the development and optimization of automated processes within the pharmaceutical industry. With a robust background in regulatory compliance and quality assurance, this professional excels in creating automated solutions that not only meet but exceed industry standards. Proven expertise in project management, with a history of delivering projects on time and within budget.

### EXPERIENCE

#### LEAD AUTOMATION ENGINEER

##### PharmaTech Solutions

2016 - Present

- Oversaw automation projects for drug manufacturing processes.
- Ensured compliance with FDA regulations in automated systems.
- Developed validation protocols for new automation systems.
- Collaborated with quality assurance to maintain product integrity.
- Implemented real-time monitoring systems to enhance safety.
- Conducted training sessions on automation safety standards.

#### AUTOMATION ENGINEER

##### HealthCare Systems Corp.

2014 - 2016

- Designed automated solutions for laboratory equipment.
- Reduced error rates in data collection through automation.
- Worked closely with regulatory teams to ensure compliance.
- Developed training manuals for end-users of automated systems.
- Analyzed system performance data for continuous improvement.
- Participated in cross-functional teams for process development.
