WORK EXPERIENCE

Senior Automation Engineer 2020-2023
Telecom Innovations Ltd.

- Led automation projects for network monitoring systems.
- Developed scripts for automated fault detection and response.
- Collaborated with IT teams on system integrations.
- Conducted performance evaluations of network automation tools.
- Trained staff on automated troubleshooting techniques.
- Implemented best practices for network automation.

Automation Engineer 2019-2020
NetSolutions Corp.

- Designed automated solutions for network configuration management.
- Utilized data analytics to improve network performance.
- Developed documentation for automation processes.
- Analyzed data to identify areas for network optimization.
- Participated in cross-functional teams for project execution.
- Presented automation strategies at industry conferences.

ACHIEVEMENTS

- Increased network uptime by 15% through automation.
- Awarded 'Top Innovator' for contributions to network automation.
- Successfully led a project that reduced response time by 25%.
